

## PATIENT INSTRUCTIONS STEPS 6-8:

6. Ensure all Vacutainer lids are screwed on tightly so they do not leak in transit.  
Place the Vacutainer(s) into the plastic transport container.  
Slide the plastic container into the cardboard tube and close lid.  
Place the cardboard tube into the sealed section of the specimen transport bag.
7. Ensure that your test request form has been correctly filled out and all patient information is correctly stated. This includes full patient name, date of birth, residential address and telephone number.  
Once completed, place into the unsealed section of the specimen transport bag.
8. When your sample is ready to be transported, please ring the courier number provided on the pre-paid return bag.  
**Please advise this is a medical specimen.**

Alternatively, you can drop the package to your **nearest agent**.  
(Record the "customer" number on the front right of the track pack.  
This is your record to track delivery)

### GENERAL DISCLAIMER

We recommend that you always seek the advice of a qualified health care practitioner regarding any medical or health related diagnosis or treatment before acting on this test information. Nutrisearch does not provide clinical advice on test selection or interpretation of testing for wellness testing to patients, nor does it provide diagnosis, treatment or medical advice. Nutrisearch is not liable to you or anyone else for any loss or negative consequence caused in whole or in part by interpreting, delivering or reporting information through the utilizing of laboratory testing services. In no event shall we be liable to you or any other party for any decisions made or action taken or not taken by you in reliance on such information.

*Thank you for your request. Results will be forwarded to your referring practitioner upon completion. All testing is performed by NutriPATH Pathology.*

- 1 x 5ml K2E EDTA Vacutainer (clear top)
- 1 x 2.7ml Sodium Citrate Vacutainer (light blue top)
- 1 x 4ml Fluoride Oxalate Vacutainer (grey top)
- 1 x Cardboard Transport Cylinder
- 1 x Plastic Transport Container
- 1 x Specimen Transport Bag
- 1 x Collection Instructions
- 1 x Request Form
- 1 x Courier Bag (prepaid)

### BLOOD COLLECTION LABORATORIES

Nutrisearch has blood collection arrangements in place with several laboratories throughout NZ (refer to the attached list for locations of collection centres in NZ).

A blood collection fee is payable direct to the laboratory for collection of the specimen – please enquire at the collection laboratory for this cost.

### PATIENT INSTRUCTIONS **STEP 1:**

1. The patient will go to the nearest pathology collection centre or pathology laboratory (see previous page) to have their blood sample collected.

### PATHOLOGY COLLECTOR INSTRUCTIONS **STEPS 2-5:**

2. Confirm the patient has fasted for this test and note it down on the request form.

3. The pathology collector must collect **4 FULL VIALS:** 1x SST (yellow top), 1x K2E EDTA (clear top), 1x Sodium Citrate (light blue top) and 1x FL.OX (grey top).

4. The SST tube (yellow top) and K2E EDTA tube (clear top) will need to be centrifuged. **\*The Sodium Citrate (light blue top) and FL.OX (grey top) do not require centrifugation**

5. The pathology collector must ensure all specimens are clearly labelled, before returning them to the patient.
  - Full name
  - Date of Birth
  - Date of Collection
